PROFILE

A frontend developer with strong experience in building high-performance, scalable web applications using HTML, CSS, JavaScript, React.js, and Next.js. Possesses advanced skills in designing interactive interfaces with GSAP to enhance user experience. Focused on optimizing website components for fast loading and smooth interaction. Demonstrates an exceptional ability to collaborate with cross-functional teams to deliver robust applications that meet project goals and adhere to the latest industry standards.

PROJECTS

Sunbulah, E Commerce 🔗

Walima social, Ecommerce 🔗

Madinet Masr, Real State 🔗

Hyde Park Developments, Real State 🔗

PROFESSIONAL EXPERIENCE

Feb 2025 – present
Cairo, Egypt

Health Insights Asia, Senior Frontend Developer

- **Developing and enhancing the official company website**, ensuring a seamless user experience using **React.js**.
- **Building dynamic tables and forms** integrated with the company's internal system to improve data management and workflow efficiency within hospitals.
- Collaborating closely with cross-functional teams to deliver scalable and user-friendly interfaces.
- Implementing best practices in frontend development to optimize performance and maintainability.

Mar 2020 – present

Freelance, Frontend Developer

As a **Freelance Frontend Developer**, I have successfully collaborated with a diverse range of clients, delivering high-quality **web applications** and **websites** tailored to meet specific business and user needs. I specialize in using **HTML**, **CSS**, **JavaScript**, and modern frameworks like **React.js** and **Next.js** to create **responsive, user-friendly interfaces** that enhance the overall user experience.

Key Projects:

- **Mr. Ehab Azmy - Resource Hub**: Developed a **centralized platform** for educational materials (videos, articles, and downloads) to provide easy access for students. Key features include:
- **SBS Trello Clone**: Developed a **task management app** inspired by Trello, with a focus on intuitive functionality for organizing workflows. Key features include:

Oct 2023 – Jan 2025
Cairo, Egypt

Beyond Creation, Mid Frontend Developer

- **Developed interactive web applications** using **Next.js**, ensuring fast loading times and SEO optimization for better performance and visibility.
- **Integrated interactive animations with GSAP**, creating a smooth and engaging user experience across the platform.

Key Projects:

- **Madinet Masr - Hyde Park - The Ark Real Estate Applications:** Developed a **dynamic website** using **Next.js** and **GSAP**, enhancing the user experience by focusing on **component unification** and adding **interactive features**. Optimized the site for fast loading and responsive design.
- **Walima - Sunbulah E-commerce Applications:** Built a comprehensive **e-commerce platform**, improving the **user experience** from **product selection** to **checkout**. Collaborated closely with design and backend teams to ensure a **seamless shopping experience**, implementing key features like product filtering and personalized recommendations.
- **Xplor Platform:** Created an innovative **website builder platform** for **Xplor Travel and Services**, enabling travel operators to easily create **custom landing pages** upon subscription. Designed a **streamlined content management system** that allows operators to generate personalized pages and easily manage content. Focused on delivering an **intuitive UX** by building **reusable components**, ensuring flexibility and scalability. This empowered travel businesses to efficiently promote their services and attract customers.

Feb 2023 – Oct 2023
Dokki, Egypt

EraaSoft, Mid Frontend Developer

- **Led the frontend development team**, assigning tasks, overseeing progress, and actively participating in project development to ensure timely delivery of high-quality work.

Key Projects:

- **EraaSoft Website:** Designed and developed an **engaging educational website** using **HTML, CSS, and JavaScript**, prioritizing **seamless user experience** to enhance the learning process. Implemented **responsive layouts** to ensure optimal performance across various devices and integrated **interactive features** to engage users. Conducted **user research and usability testing** to guarantee **accessibility** and ease of use, resulting in a modern platform that delivers essential educational resources.
- **Jomo E-Commerce Website:** Developed a comprehensive **e-commerce platform**, improving the **user experience** from **product selection** to **checkout**. Collaborated closely with **design and backend teams** to deliver a seamless shopping experience and optimized the platform for performance and scalability.
- **Eraasoft LMS:** Led the development of an advanced **Learning Management System (LMS)**, featuring:
